

5TH GRADE PARTICIPATION REFUSAL FORM

The Impact program will be presented at our school on \_\_\_\_\_.

This program is offered by The Life Center of Midland as part of its Prevention Education Department. The Impact program is a NO COST, medically accurate, character-based sexual integrity program that includes topics such as:

- Setting goals
• Risks and consequences
• Introduction to male and female reproductive systems: boys learn from a male instructor and girls learn from a female instructor
• Great friendships: do they have the same values as me?
• Healthy affection vs. inappropriate behavior
• The impact of media and keeping myself safe on social media
• Peer pressure
• Effectively handling bullying

The goal of the Impact program is to encourage pre-teens to make choices that respect themselves, their bodies and others. The materials taught for reproductive education comply with state-mandated Normal Human Growth and Development requirements for 5th grade.

If you have any questions about the program, please contact your school counselor or The Life Center's Prevention Education Director at 432.683.6072. You can also view a short video describing the program at tlcdonor.org, under the abstinence education tab.

PARENTAL REFUSAL SLIP

Please return this form to your school if you DO NOT wish your student to participate.

If no form is returned we will assume you have given permission for your student to participate in the program.

[ ] No, I would rather not have my child participate in the Impact program.
